HOW TO
MAKE MONEY

PIONEER-MANUFACTURERS OF
KNITTING-MACHINES IN CANADA
ESTABLISHED 1872—½ CENTURY—50 YEARS

R. I. CREELMAN
PROPRIETOR

INTRODUCTION

WE TAKE PLEASURE in presenting our new catalogue of **6-family-knitting-machines** combined with "**How to make money by knitting**" formerly sent out separately.

We have been **hard-at-it** for one-half-century, 50 years. This Anniversary-year of 50-years-success on-merit-alone with **50,000 well-satisfied-users** of our machines tells the story of how we out-lived no less than 10 competitors. **The secret is in the merit** of our machines. We are determined the **NEW 20TH-CENTURY** will be better than the old; that our reputation for **Honest-value** and **Fair-dealing** will be sustained. Our customers can rely on having **Our-very-best-service**, and all orders our prompt and careful attention.

LOWER PRICES

To help to meet the demand **For-Lower-Prices** For year 1922, our 50-year-Anniversary; we are making a **Special-CASH-WITH-ORDER** Liberal-discount to help to make a **Worthy-Anniversary** and **LARGE-SALES-RECORD**. **Your opportunity is now.**

Respectfully Yours,
CREELMAN BROS.

See pages 31 to 48 for—

"How to make money by knitting."

THE 20TH CENTURY NEW-WAY

ONE PAIR IN 20-MINUTES
ON THE MONEY-MAKER-MACHINE

PRICE WITH ONE NEEDLE CYLINDER
WITHOUT STAND

\$42.00

PRICE WITH STAND

\$67.00

THE OLD WAY IN GRANDMA'S TIME
ONE PAIR IN 21 HOURS

THE BANNER-MACHINE

OUR-VERY-BEST for FAMILY-USE AND MONEY-MAKING is shown on a BANNER-STAND, not essential and therefore is usually purchased without the STAND and cost on a STRONG-KITCHEN OR SPECIAL-TABLE. IT IS SHOWN complete with ONE-NEEDLE-CYLINDER, RIBBER, CORRESPONDING-DIAL AND ATTACHMENTS.

THE-BANNER in a day of 10 hours will knit 24 to 26 pairs of Rib-Socks by Hand Power; 36 to 38 pairs of Rib-Socks by Electric Power.

PRICE—Complete with Stand as shown, with only ONE Cylinder and Dial... \$90.00

FOR PRICES WITHOUT STAND SEE NEXT PAGE

WE RECOMMEND the Ribbing-Machines in Expert List, which have the Two-Dials. THE 60-CYLINDER IS THE MOST-POPULAR FOR RED-CROSS AND MILITARY-SOCKS MADE FROM 4-PLY COARSE-FINGERING-YARN.

6-HOOK NEEDLES will knit Extra-course-yarn better and looser than regular $3\frac{1}{2}$ Hook-Needles which accompany each Regular-Machine.

HOME PRICES OF THE BANNER-KNITTING-MACHINE

WITH 2 OR MORE CYLINDERS

We RECOMMEND for Family Use Machines Nos. 1, 2 and 3. For Canadian Trade and for MONEY-MAKING, No. 4.

THE BANNER is Wonderfully-Simple. Like our Old-Pioneer-Friend—"The Worky Star", it is built-strong, durable, Mechanically-perfect, and of the very Best-material and workmanship, which makes it especially adapted for Hand-manufacturing of the World-famed Fall-fashioned **ROBES** and Plain Scarves-Hosiery, etc., as well as for Power-knitting, and by Last effort in **FIRST-CLASS-FAMILY-MACHINES**. Driving-Wheel is 6-inch diameter.

Power-Attachment can be supplied at any time if \$1.00 extra is paid to prepare machine for Power-knitting.

FOR HIGH-SPEED HAND-WORK,
to complete with power a 9-inch driving
wheel is attached. Price, extra, \$1.50.

THE WORLD'S STAR

For many years was OUR-MONEY-MAKER and the BEST-MONEY-MAKER for many thousands of Patrons and Lovers throughout the world.

**THE BANNER
MACHINE IS
OUR-VERY-BEST**

THE BANNER IS NOW THE WINNER, and has been for many years, the **BEST 20TH CENTURY MONEY-MAKER** for both the Public and ourselves, and we therefore recommend and guarantee it as a profitable investment to those desirous of Making-Money-by-Knitting. It is the **Best-for-Family-Use**.

THE NO. 4 BANNER will earn \$100 in half the time that \$50.00 can be earned on a machine with only one cylinder.

EXTRA-NEEDLE-CYLINDERS, Dials, Needles, Etc., supplied at any future time. We do not send Machines out on trial—we guarantee them. See terms of payment, etc., on Page 22.

Machine Knitting

is as interesting as Fancy-work—and many fancy articles as well as the

Beautiful Garments

shown on page 23 can be made.

Our Brief Illustrated Instruction Book will teach you all.

It is a School of Industry for Young and Old.

Machine-Knitting is not only an Art and Trade, but a promising Canadian-industry, growing rapidly to absorb all investments.

THIS CATALOGUE is 746-cms. (30 In.) x 64-cms. (25 In.) and shows how to make money. Formerly sent out, our catalogues for such:

IMPORTANT

ALL OUR FAMILY MACHINES will do the same work with the same cylinder, shuttles, needles, etc., and are all as interesting as the Fancy-work they produce.

THE BANNER IS

- THE BEST for Bird-Cross-Socks.
- THE BEST for Military-Socks.
- THE BEST for Home-Trade.
- THE BEST for Foreign-Trade.
- THE BEST for Custom-Work.
- THE BEST for Family-Work.
- THE BEST for Dollar-Making.

It is also the Best for

Convents, Boys' Homes, Training Schools, Houses of Correction, Industrial Institutions, Homes, etc.

IT IS THE BEST For High-Speed.

IT IS THE BEST For Active-Agents.

IT IS THE BEST For Money-Making.

THE-VERY-BEST TO PUT DOLLARS IN YOUR HAND.

The Banner

is made in 4 1/2 inches for Family-use also in 3 1/2 inches for Custom-work.

They are the two-best-diameter-sizes for General work and can be Run-by-Power when Power-Attachment is Combined.

SPECIAL SIZES MADE TO ORDER

The "World's Star" Knitting Machine

THE "WORLD'S STAR" has been The World's Wonder in all the World's Markets For A Full Half-Century—50 years—and has gained a World-wide reputation as a High-grade-machine for Family use, and for Manufacturing Sewless-hosiery by Hand or Power. It is made with 6-inch driving-wheel, in the same size as the "Banner" and is special stock for knitters, and can be supplied with the "Banner" Stand, as shown with "Banner" Machine, or with 6-inch driving-wheel, at \$1.50 extra. Power Attachment can also be supplied later, if \$1.00 extra is paid to prepare machine for Power-running.

**The BANNER and WORLD'S STAR
ARE THE WORLD'S BEST**
For Hand-Manufacture of Rib or Plain-
Seamless-Hosiery.

The World's Star

is very Simple and Perfect and has satisfied for Tens of Thousands of Critical-consumers for over 50 years of Unprecedented-success in the World's Markets.

The World's Star

Like the Banner

Is Up-to-Date in Everything

Our Motto

"The Best

and

Best Only"

Thousands by "Experience" have found Plain-Machines without a ribber. Only half-a-machine, and that **The-Best-is-the-Cheapest**. The "WORLD'S STAR" Ribbing Machine has a World-wide Reputation, shining-brightly in almost the entire world, and is now doing so on the four continents, where thousands of the World's Star are in use. Its merits are so well-known we need only refer to it as **A-STAR-That-Lives-to-Shine**. It is designed for Power-Knitting and High-Speed and made extra-heavy and Strong in all parts. Like the Banner, it is just the machine for Convents, Schools, Asylums, Houses of Correction, Industrial Institutions, and especially for Sewless-hosiery-makers. Thousands have been sold for Family-Use, and will continue to be sold to those who can afford to pay the price.

HOME PRICES OF THE WORLD'S-STAR-MACHINE

WITH 2 OR MORE CYLINDERS.

WE RECOMMEND for Family Use Machines Nos. 1, 2 and 3. For Canadian-Trade and for MONEY-MAKING No. 4.

APPROXIMATE-WEIGHT-BOXED.

Ribbing Machines.

Gross, 82 lbs.; Net, 45 lbs.

Plain Machines.

Gross, 62 lbs.; Net, 25 lbs.

EXPORT-PRICE-LIST is for machines complete with Ribber, One-Needle-Cylinder Corresponding-Dial and Attachments. The Second Dial is \$5.50 extra.

Some Canadian Agents prefer selling machines with only One-Needle-Cylinder. SEE FOOT-NOTE, PAGE 5 for Explanation of Dials. The 2 & 1 Rib Dial will make 2 & 1, 3 & 1 and 5 & 1 rib-work—therefore a good investment. See bottom of page 5.

THE DOLLAR-MAKER KNITTING - MACHINE

THE DOLLAR-MAKER (as it is called by its friends who have made many Dollars on it) is a Veritable-Dollar-Maker, and has earned this Popular-name by merit alone. It is Simplicity-materialized into a **COMPACT and PERFECT KNITTING MACHINE.**

Complete—With Ribber, One-Needle-Cylinder, Dial, Attachments and Banner

Stand, without Attachment-Casket	Price \$85.00
With Attachment Casket	Price \$90.00

MAKING-RIB-WORK is Very Staple with the Transfer-Needle by simply fitting a Needle out of the Cylinder and placing it in the Dial while the Stitch remains on the Needle and Vice Versa is changing from Rib to Plain-Knitting.

THE BANNER STAND, as shown, has a highly-finished Antique Oak Top.
 Complete for Stand only, without Attachment Casket Price \$85.00
 Complete with Attachment Casket Price \$90.00

THIS MACHINE, and most of our Family-Machines are ordered without the **NON-ESSENTIAL-BANNER-STAND.**

PRICES WITHOUT STAND, SEE NEXT PAGE

You can have your hand
full of Dollars

If you Buy a

DOLLAR-MAKER KNITTING MACHINE

You Can Cut a Figure in the WORLD
when you have the Dollars.

THE DOLLAR-MAKER, the SO \$1000.000.000 has
its Special-patent-of-invention. Its-shield and special feature
is ITS TRANSFER NEEDLE, the same needle being used in
the Needle-Cylinder-and-Dial. To do this-work the needle is
simply slid out of the Cylinder and placed in the Dial with the
work-on-it, and with-the-dial piece work. This tells the whole
story of SIMPLICITY in design, therefore you need not be afraid
to purchase for sale-at-all-leasing.

YOU CAN KNIT FOR THE WHOLE FAMILY

The Dollar-Maker Machine

Is pre-eminently a Family-
Machine—a Home-Worker—
a Good Investment.

IT IS VERY SIMPLE, the most easily learned.
IT IS VERY RAPID using its Transfer-needle.
IT IS THE BEST for producing Hand-knit.
IT IS THE BEST for Cap-knit and Boot-knit too.

SEE THE BEAUTIFUL
WORK IT WILL DO
ON PAGE 30.

IT WILL | the 1st HAND-MADE-SOCKS which can be sold as Hand-knit, the
M A K E | Top, Heel, Toe and Rib Leg are exactly the same as made by hand.
AND ALL ARE MADE AND FINISHED ON THE MACHINE.

YOU CAN BE A \$-MAKER.

For 2 & 1 Rib-Work like Hand-work, procure a Dial with-holes equal to one third in
cylinder required. Size 2 & 3 Dial for Expert Price List.

THE MONEY-MAKER-A

Knitting-Machine

YOU CAN'T DO BETTER if you are thinking of purchasing a First-class-machine at a moderate price.

Thinking about the man in the moon is treasure!
Thinking about buying A-First-Class-Knitting-machine is GOOD-BUSINESS.

Do not think too much with others decide and buy and Make-money while working on and Think and Think and wonder how it looks.

SEE MACHINE ON BANNER-STAND
NEXT PAGE.

THINKING—CONTEMPLATING

THE
Money-Maker-A

IS A
**FAMILY
DOLLAR-MAKER**

YES, IT IS
and costs about one-third less
than the

Banner and World's Star

IT-WILL-DO-IT

And everything that the Banner and
World's Star can possibly do.

IT IS AS GOOD AS GOLD

Our Best Medium
Priced Family
Knitting Machine.

The Money-Maker-A is our best effort to give the money-world a good thing at a moderate price. In construction the Money-Maker-A is practically the same as the Banner. The Needle-Cylinder, Needle-Dial, Case-Cylinder, Case, Needle, and attachments are essentially the same and First Class.

THE MONEY-MAKER-A, DOLLAR-MAKER, IMPROVED MONEY-MAKER, and MONEY-MAKER Machines are not made in San-Antonio. SEE BANNER and WORLD'S STAR—Pages 4 & 5 and 6.

THE MONEY-MAKER-A KNITTING MACHINE

IS-OUR-VERY-BEST MEDIUM-PRICED-MACHINE. IT WILL DO ALL THAT
CAN POSSIBLY BE DONE ON THE BANNER OR WORLD'S STAR.

The Money-Maker-A-Machine—Complete with Banner Stand and Attachments
Price with only FINE Cylinder and Dial. \$80.00

THE BANNER STAND has a Highly-Finished Antique Oak Top. Machine ~~75.00~~
Complete, with Attachments and Attachment Case—Price \$85.00

USUALLY SUPPLIED without stand with 8-in. driving wheel, rapid, simple, durable.

FOR PRICES WITHOUT STAND, SEE NEXT PAGE.

APPROXIMATE-WEIGHT-BOXED.

Ribbing-Machines.

Gross, 30 lbs.; Net, 20 lbs.

Plain-Machines.

Gross, 30 lbs.; Net, 27 lbs.

EXPORT-PRICE-LIST is for machines complete with Ribber, One-Needle-Cylinder, Corresponding-Dial and Attachments. The Second Dial is \$5.00 extra.

[See Canadian Agents prefer selling machines with only One-Needle-Cylinder. SEE FOOT-NOTE, PAGE 5 for Explanation of Dials. The 2 & 4 for Dial work makes 2 & 4, 2 & 4 and 2 & 4 (5) work. Both Dials are best. A Very Valuable Machine.

THE IMPROVED MONEY-MAKER RIBBING MACHINE

For Family Use

LET US TELL YOU THAT WE CANNOT BLOW OUR TRUMPET TOO LOUD IN TELLING YOU ABOUT

THE MERITS of this machine, which is Exceptionally low in price, too low, considering the Superior Mechanical-Construction and Wonderful value.

IT IS THE BEST production of our factory for the money, and completely fills the bill as a Simple, Strong, Light-running, Easily-leamed, Low-priced, First-Class Family Knitting Machine.

Its Only Fault is, it is so Durable, you will not require another in your lifetime.

One-Needle-Cylinder and One-Ribbing-Dial are supplied at the above price. Either 54 or 60 Cylinder and Corresponding Dial.

EXTRA-CYLINDERS, DIALS, ETC., can be ordered at any future time to make it equal to a No. 4 Machine.

IN ALL FAMILY-MACHINES for knitting coarse and medium yarn we recommend our No. 4 with 54 and 72 needle cylinders and 26 dial which work with both cylinders and are equally for 12 gauge for $3\frac{1}{2}$ -hook-needles, and will make Two-and-one-half Like-hand-work with every third needle out of the 54 cylinder, and every other needle in the dial, giving 36 needles in the

cylinder and 18 in the dial, or 54 stitches, and 72 stitches with all needles in cylinders, making LARGE HEAVY ELASTIC SOCKS weighing 5 to 7 ounces to the pair, or 4 to 5 pounds to the dozen, which is the popular heavy-weight. 48 Needle-Cylinder and 16 Dial can also be supplied for Extra-Heavy-Socks and Mitts.

TWELVE-GAUGE, No. 4, Large-hook-needles can be supplied for regular 12-gauge cylinders and dials. In place of the regular $3\frac{1}{2}$ -hook, we recommend 101 of these at an extra. 70 Cylinder-50 Dial-Needles Price \$1.50

THE MONEY-MAKER KNITTING MACHINE

SEE STAND AND ATTACHMENTS NEXT PAGE.

THIS CUT shows machine only, with Ribber and One-Needle-Cylinder, with work on the machine, as in operation.

THE PRICE is remarkably low, within reach of all.

IT IS mechanically - well - made, with FIRST-CLASS material and workmanship.

SPECIAL FEATURES are Originality, Simplicity and Durability.

IT WILL DO ALL that can possibly be done on the High-priced-machines of average cost.

THE SPEED is as great as in the High-priced-machines, and is very rapid for Family-knitting, and many use the Money-maker.

IT WILL KNIT every-variety from pairs of All-styles-socks to Stockings, in one day of ten hours. Undershirts, shirts, drawers, caps, ties, quilts, as well as ribbed and plain mitts, hosiery, etc., can be made equally well on the "MONEY-MAKER," with the same cylinder, dial and needles, as with the higher-priced-machines.

HERCULEAN

IT IS STRONG, durable, simple, Remarkably-Light-Running and without a rival at the price.

DO NOT FORGET THIS POINTER.

Beware of Cheap-Trap-Machines, on the Market to Trap-People with Inferior-Soft-Metal in Cylinders and Dials, Etc., that you can Cut-with-your-knife, which cannot possibly give Wearing-qualities.

\$100.00 REWARD to any-one-with-reasonable-intelligence who carries home to each a Good-sack or showing in a few hours' time for any of our Family-machines.

We do not send Machines out for approval. We guarantee them to be O.K.

THE MONEY-MAKER

WITH BANNER STAND

Complete, with Ribber, Banner-Stand, all Attachments and One-Needle-Cylinder
Price, only

\$67.00

THE MONEY-MAKER shown on this page is the same as shown on the previous page, only this cut showing later-improved-machine on stand, while the cut on page 10 shows the machine upon an Ordinary-table. It can be supplied with-or-without the **BANNER STAND**, or as a Plain Machine without **RIBBER**, as may be desired. **IT IS ALL RIGHT.**

THE MONEY-MAKER is usually supplied without **BANNER-STAND**,
PRICES WITHOUT STAND, SEE NEXT PAGE.

SHOULD ANY CUSTOMER wish their present 12-gauge 24-cylinder and 00 dial read for 10-gauge needles with large No. 5 book to enable them to knit heavy-threads-yarn, we can do it if they will return to us, express prepaid, their 24-cylinder, 30 dial, Cass-cylinder and Ribber-cass-plate, and we will make the necessary changes. The charge for this, including one-hundred 10-gauge needles, No. 6 book, will be \$8.00, cash with order postage paid, or we can supply you with a new 24-cylinder and 00 dial cut 10-gauge, and one hundred 10-gauge needles, No. 5 book, but this has now in use for a month for price of \$17.00 cash, postage paid. Cash with order. We supply 12-gauge Largo-Shool-needles, No. 5 for Regular Cylinders for Course-Work, \$4.50 per 100.

THIS IS A POWER HOSIERY-FAMILY-MACHINE, PRICE \$499.00 NET. THE POWER-ATTACHMENT CAN BE SUPPLIED WITH BANNER AND WORLD-STAR-FAMILY MACHINES ONLY. PRICE OF ATTACHMENT, \$39.00.

BANNER-STAND

THE BANNER STAND, as shown below and on other pages, with Machine removed, makes a very useful and necessary piece of furniture suitable for card or party-table and can be supplied with All Styles of our Family Machines.

THESE USEFUL AND ORNAMENTAL CABINETS AND STANDS, as shown in this Catalogue, pages 2, 4, 10, 14 and 20, make a new departure in the manufacture of Family-knitting machines, and one which should be appreciated. The Banner-Stand page 4 shows the machine and attachments all close-together to reduce the size of the engraving, and more conveniently shows what constitutes a Complete-Machine; and at the same time shows the relative position of the Yarn-reel and Hobbin-winder, when winding Bobbins.

THE BANNER STAND is ornamental as well as useful, and is so designed that it will fit the corner of any room, and makes a handsome piece of furniture and as such alone has full value.

PROVISION IS MADE for the proper-working of the Hobbin-winder and Yarn-reel upon the stand, by withdrawing from under the stand a Separate-holding-bar for each, to which they are attached, and by this means the distance between them can be extended and regulated for practical-working and the Yarn-reel and Winder removed when desired, and the Holding-sliding-bars pushed in out-of-the-way under the stand, and remain there out of sight until required again.

THE BANNER STAND PRICES

ANTIQUER OAK TABLE.—Complete-with-attachment-casket, only \$30.00
ANTIQUER OAK TABLE.—Complete-without-attachment-casket, only \$25.00

IDEAL DROP CABINET

THE CABINET SHOWN on this and page 16, with Machine, etc., makes a beautiful and useful piece of furniture, suitable for Writing-desk, Writing-table, Card-table, or Party Tea-table, and can be supplied with all styles of our Family-Machines. IT IS EQUALLY FINISHED ON ALL FOUR SIDES, and forms a Writing-Desk with Slanting-top on back of stand. It has full value as a handsome and useful piece of furniture.

THIS CABINET IS OFF-THE-MARKET OWING TO HIGH-COST-OF-PRODUCTION.

THE IDEAL-CABINET closed, with machine and all attachments under
Safe-lock-and-key.

Price of Complete Cabinet, Highly Finished, \$35.00.

FATHERS—MOTHERS BOYS—GIRLS

THINK OF THIS

GET BUSY, take Time to Think, Invest and Invest
and be cheerful like the fellow on the job.

YOU CAN DO IT

We have any one of our FAMILY-MACHINES
and not only

MAKE MONEY

but obtain the benefit from head to toe and
as happy as the little girl

BE-AS-SERIOUS

about it as the lady on the "earnest read"
How to Make Money by Knitting"
Pages 31 to 44

ON OUR MACHINES

YOU-CAN-MAKE in a day of ten hours from 40 to 12 pairs of men's
Hand-Made Socks, with Cap-heel and Finished-to-the-heel method,
or 24 to 30 pairs of Men's Socks with Round-heel-and-toe. At the
average sale of a pair for 25 cents, the net profit would be \$1.00
\$4.20 per day.

My last word is **REMEMBER** what I told you, **OUR MACHINES
ARE - FIRST - CLASS.** Some are **LOW-PRICED** for the quality.

Look for some cheap-trap-
machines on the market by
Timp-people, with Cyclone
Dials, Etc., made of Inferior
Soft-Material that you can
cut with your knife. Don't
let them catch you. Don't
buy them, they will go some-
times, but not when wanted.

POINTERS

WE ARE OFTEN asked if our Knitting-Machines Will-do-every-thing. Frequently correspondents state that they want a machine that Will-do-every-thing. They do not mean a machine to Keep-losee, Make-bread, Make-bad-people-good or Make-good-knitters out of Bad-knitters. We always assure them that they will do the latter but not the former and Will-do-more than most Family-Machines on the market and more than the beautiful garments, illustrated on page 23, In-all-time. What more can be expected of a Family-knitting-machine that costs \$200.00 to \$800.00 less than some Power-machines that do One-thing-only?

OUR-40-PAGE FULLY-ILLUSTRATED INSTRUCTION BOOK

will be sent to ANY-ONE, ON RECEIPT-OF-41.00 by mail

Postage and Government Tax Prepaid.

We would advise this especially with those who fear they cannot learn the machine alone.

NOTE ALL-MACHINES-ORDERED with ordinary Cylinder 48 or 54 will be the same price as machine with a 60-cylinder.

SPECIAL MACHINES for COARSE WORK with 54, 60 and 72 cylinders and 30 and 36 dials and 100 extra needles. No. 3 book may be ordered at same price as a No. 4 machine.

OUR-INSTRUCTION-BOOK is a BRIEF-SELF-TEACHING-GUIDE and will Teach-you-all and Show-you-how Simple-and-easy-learned our machines are. WE-WILL-SUPPLEMENT the Book-instruction by Letter-correspondence if necessary and the \$1.00 resultful Cap-be-deducted from REMITTANCE-FOR-MACHINE if mentioned when ordering machine.

GOVERNMENT-TAX is 4-1/2-per cent-extra, over and above Retail prices and Agents' prices on Machines, parts and all supplies. (There is no Tax on Export-Shipments).

CANADIAN CORRESPONDENTS or Foreign-correspondents will help us materially by sending us Sample of work and ease or both, so that we can better inform them of The-best-machine-for-their-requirements.

VALUABLE POINTERS

WE RECOMMEND the Brother-machine as the Best-family-machine in manufacture, the Minky-Maker as the Best-machine-press-machine and the Improved-Minky-Maker as the Best-try-press-machine and recommend the No. 4 machine to those who can afford the price as the Best-for-various-grades-of yarn and Various-kind-of-garments.

and he will Sup-
porting, as it
make a better
eye themselves
by learning the
Art of Knitting.

Just think of - the - time and
money spent in learning Military-
Dressmaking, Tailoring and other
trades; then think how reasonable
it is to spend \$5.00 or \$10.00 for
instruction to learn knitting, which
is not only a Trade, but an Art, de-
manding the best taste and skill
and chosen for its pleasure and
profitableness by the rich as well
as the artisan.

Many more of our Machines
will teach for 25 cents per hour.
Why not be a first-class teacher?

MANY BOYS AND GIRLS who have learned the ART OF KNITTING, in these
wealthy days are now Visiting and Possessing, and occupying the best positions in
First-class Establishments and receiving Large Salaries, or are the owners of a Good
paying knitting business of their own. **FIRST-CLASS-KNITTERS** have for many
years been much in demand, the supply being far short of the demand, and in conse-
quence in self-employment good wages have been paid, ranging from \$2.50 to \$3.00 per
day. The Free-Work.

TO PUT MONEY IN YOUR HAND

WE RECOMMEND a machine with Two-Needle-Cylinders for *Home-Use* especially for *Canadian Trade*. The reason is obvious. A machine with two cylinders will do a much larger and more valuable range of work than one possibly to do, with a machine with *Only-one-needle-cylinder*. It will knit the various sizes of *hosiery and yarn better*. It is well worth the difference in price, as the *Range-in-Range and Sweaters, etc.*, is largely increased by the addition of one *Extra-cylinder*. See last class, page 18.

REASONS—WHY

THE FACT IS, a Machine with two cylinders is necessary for *Family Use* and where profits are *Making-money-by-knitting* the advantage is still greater, as a *Two-cylinder-Machine* will pay for itself in half the time required for a *Machine with one-cylinder*. This, however, need not prevent anyone from buying a *Complete-machine with one-cylinder* (which will compare cheap with the work it will do) and thereby make a *cheap start*, and *Extra-cylinders* can be obtained when desired.

We-All-Wear-Sweaters Hosiery

We recommend for *Canadian Trade* the following cylinders and disks, with a *Two-cylinder-machine*, the *Optimal* named working with *both-the-cylinders*, thereby saving the cost of an *extra-disk*. The cylinders and disks named are those which give the best results to the majority of purchasers, viz.:

- No. 1-64 and 77 Cylinders and 80 Disk for *Extra-Course and Medium*, *Yarn 2 and 4* etc.
- No. 2-64 and 80 Cylinders and 80 Disk for *Course and Medium*, *Wool Yarn 2 and 4* etc.
- No. 3-72 and 96 Cylinders and 48 Disk for *Medium and Fine*, *Wool Yarn 2 and 4* etc.
- No. 4-72, 77 and 80 Cylinders, 30 and 80 Disk for *Money-making yarn 2 and 4* etc.

The First has the longest sale with *farmers and others using Extra-Course and Medium Yarns*.

The Second has the longest sale with *Thompson's wool, Course and Medium Yarns*.

The Third is for *City Trade*, where the *Finest and Finest Yarns* are used.

The Fourth is for *Commercial and Course-Kniters, Institutions, Shirts, etc.*

The *Disks*—26, 28, 28, 32, 35, 35, 35, with every needle in disk, will knit 3 & 4 Rib-like-hand work with the *Corresponding-course-cylinder-normal*. All cylinders that divide evenly by three will make 2 & 1-rib-like-hand-work.

For *Money-Making-by-knitting*, we strongly recommend *Machine No. 3*, for *HEAVY-SOCK-WORK*, we recommend cylinders 54 also 60 and 77, *Yarns* are No. 4 machine with 100 extra No. 3 *Hook Needles and Disk 39 and 26*. These machines will make \$100.00 in half the time that \$50.00 can be made on the same machine with only one needle cylinder. Therefore a *Good Investment*.

CUSTOM KNITTING

FOR MONEY-MAKING AS A BUSINESS

is usually engaged in by those who devote their Whole-or-part-time, and go in for all they are worth for Money-making, and in consequence, make-it-a-success. It may be engaged in by anyone as a pleasant and Profitable-hobby-work, without a store, shop or sub-stance other than the Private-residence (although the latter is better when the volume of business will warrant it), and can be run quickly and successfully established by **Knitting, Supplying-your-own-pats** as far as possible, **Selling, Taking-orders and Delivering** as you go. Those who have tried it claim they can sell as much in one day as they can make in a week. **Let selling day be Pay-day** among factories, public works, etc.

**Experience Has Proved This System
To be the Best.**

It is the quickest and most profitable and profitable way to Successfully establish a Knitting-Business-in-one-season, and in the shortest possible-time, and give an early return of your firm investments. In this progressive and practical age, the Merchant delivers his goods; the Barber, Barber and Grocer deliver the Staff-and-over-shoulder-life, why not the Knitter? Be up to date, practical and progressive, too, and deliver **Swedish-hosiery, H&K, Plain and Full-fashioned-rib, The Most Popular Hosiery in the market, of Great Demand.**

FOR
**CUSTOM
KNITTING**

The $4\frac{1}{2}$ and the $3\frac{1}{2}$ are the
two best Diameter sizes,
and practically fill the bill.

THE BANNER
and
**WORLD'S STAR
MACHINES**

Are the best for this
purpose

THE REASON IS: These two machines are especially made in their sizes for Custom-Work, while the best priced machines are made **Only-in-4 $\frac{1}{2}$ -inch** as a Family Machine, and in 4-inch for Export Trade.

We Therefore Recommend the $4\frac{1}{2}$ -inch diameter to anyone purchasing a Family Machine, and to Knitters purchasing their First-Machine who may require the $3\frac{1}{2}$ -inch size for the Rapid-Making of Children's-Hose.

See Last Clause, Page 16.

THE SMALLER SIZES IN HOSIERY can be made on the 4-ounce Family-Machine by Knitting flat-rib until the user has made sufficient money to not only pay for the first machine, but also for the second; and the Extrastitchers can be made at any time the Pocket Book Will Afford It.

We would Advise Custom-Knitters

to make a good start, right from the word go and purchase both the 4½ and 3½ Machines

AND MAKE-MONEY-QUICK

You-Can-Do-It Dead-Easy

At \$100.00 can be made more easily and quickly on the two-machines than \$50.00 can be made on the 4½ alone and You will be better pleased and Your customers better satisfied and more fully satisfied.

Be Wise and Consider What It Means

One-machine may mean six or ten, Two may mean ten to three, and Three may mean ten or more, and before you set down your business may be closed among the Will-to-do and Progressive Canadian-Industries.

The Large Manufacturers of to-day have been the small factories of the past, and the Small-manufacturers of today may be the Large-establishments of the future.

It Cannot Be Otherwise

in an Infantile-industry like the Manufacture of Seamless-Hosiery, especially in a young and growing country like Canada, which is rapidly developing its natural resources and expanding its industries, as well as rapidly increasing its population. It receives its impetus from the fact that the near future cannot help but witness some extraordinary-development (also) prosperity.

The Best Time to Purchase

For Full Trade is in the Spring-of-Summer-months—not later than the first of August. This is good advice. The reason is, you give yourself Time to thoroughly learn the Art-of-Knitting at your leisure before the First-of-September, when the Busy-knitting season commences; then you can go in for a full-season of Money-making for all you are worth.

Boys and Girls,
Think of This,
and Write Us.

First-class Operators
only (this is a demand)
We have many good
customers and good
and we recommend
each to each position.

FACTORY KNITTING

There-is-money-in-it and
You-can-take-it-out.

It has been taken out in the past,
more will be taken out in the future.

To Do So It Is Necessary

TO HAVE THE VERY BEST MACHINES.

TO MAKE THE BEST QUALITY OF GOODS.

TO FINISH WELL, AS WELL AS FAST.

TO MAKE RIBBED SEAMLESS HOSIERY.

TO MAKE RIBBED GOODS AS WELL AS PLAIN.

TO MAKE FULL-FASHIONED RIG HOSIERY.

YOU CAN DO IT.

Our Ribbing Machines Will Help You to Success.

The Reason We Have Had Success

Our Machines are
right.

They are the World's
Best.

They fill the bill for
both Rib, Plain and full
fashioned Rib Seamless-
Hosiery.

You Can Have
Hand Machines

—OR—

Power Machines

and our Advice

We have been hard
at it for a Full-half-
century.

Over 50 Years' Experience and Accumulated Knowledge is at your disposal. We may be able to help you, to make a Good start, and in selecting the Best and most suitable machine for your purpose, as well as give you Valuable information about the Knitting business that would take years to acquire unaided.

STARTING A KNITTING BUSINESS

ALL YOU HAVE TO DO IS

write us and give us all the particulars you wish as to how you wish to start, whether in a small or in a large way, whether your intent is to run by hand or by electric or other power. We can then advise you as to the best machines for the purpose and you give us an estimate on a Full Set of Machines for Seamless Hosiery or otherwise, and for Large or Small Plants, from 25 dozen machines or less to 100 or more, according to the number of machines you wish to run, or the amount of capital you wish to invest. Give all these particulars if possible.

We
Can Give
Information
as to the

BEST Machine and Size for Special or Regular Work.
BEST and most Profitable Class of Work to Make.
BEST Method of Selling Wholesale or Retail.
BEST Markets in Canada for General or Special Work.

—also—
The BEST Market to Obtain the Best Hosiery Yarn.
The BEST Market of Special and General Yarns.
The BEST, Quickest, Most Economical Methods of Operating.
The BEST Seamless Hosiery adapted to Canadian Trade.

WE WILL DO IT WITH PERASURE. We will give all the information possible as regards to price of our Machines with respect to Knitwear, Knitting, Sewing, Finishing, Opponents, Machines, Systems, Methods, Finishing, etc.

**Are You
Thinking**

ABOUT INVESTING?

This is a new and good line—Lemberger's Socks, Mitts, etc., with loop and fleece lining—made on our Special Machines.

See Family Machine, Page 28. Price of Lemberger's Loop and Mitt Pattern-Machines, Plans and Applications.

THIS IS HOW IT IS DONE

Read this catalogue carefully, buy a First-Class-Machine, make First-class work, finish well, and you can command First-class prices, as follows.

MEN'S AND BOYS' WEAR FOR KNITTING ONLY.

Socks, plain leg, ribbed top; per pair.	30c to 25c
Socks, all ribbed leg and instep.	25c to 30c
Socks, extra fine or extra heavy rib.	25c to 35c
Socks, All-ribbed and Hand-made heel with toe finished on machine.	35c to 45c
Per dozen, 20 to 25 per cent; less, according to number of dozens ordered at one time.	

WOMEN'S AND CHILDREN'S WEAR.

Caps and Toppers 25c to 35c each; Undershirts and Dresses 25c, 30c, 75c and \$1.00 according to size and quality.

For Stockings, Plain heel-top	30c to 25c	Small Sizes in Children's-Hose 5 cents per pair less.
For Stockings, Plain and narrowed.	30c to 35c	
For Stockings, All-Ribbed and narrowed.	25c to 50c	
For Stockings, All-ribbed, not narrowed.	25c to 30c	
Ladies' and Children's Vests, 25c, 30c, 75c and \$1.00, according to size and quality.		

Mitts, 20c, 25c and 35c, according to size and style.

The Above Prices are for Knitting Only. When yarn is finished, add to these prices the cost of yarn to retail selling prices. In case these prices appear a little high in any locality they can usually be reduced from 2 1/2 to 5c per pair, or 5 or 10c per pair may be added in many cases where yarn is supplied by you—Especially as yarn is high in price.

FACTORY RATES PER DOZEN

The prices vary according to the circumstances and are usually governed by the Quantity and Style of any particular kind which can be produced in ten hours.

Good-Operators on power machines can earn from \$2.50 to \$3.00 per day and on special work sometimes more.

The Rate Per Dozen is easily ascertained when the Current-wages and Production in dozens is known.

Power-Machines will produce of the cheapest goods, by First-class-operators, 6 to 8 dozen pairs in ten hours; and in Rib-top-socks, 4 to 6 dozen; all rib socks, 3 to 5 dozen; all rib-socking, 2 to 4 dozen.

TERMS OF PAYMENT

WE ARE PREPARED to give reasonable time for payment, on Monthly-installment plan with Lien, or Straight-note with Lien. All we require is Reasonable security or such information regarding financial standing, etc., as would warrant an issuing of time. Give us Bank Reference or other good reference or good security, or a correct and satisfactory statement of the value of your real estate or other Personal property, with statement of mortgage or other encumbrance thereon, and we will be prepared to open an account on credit and extend a choice of the following terms of payment:

FOR OUR BEST FAMILY MACHINES:

First, \$25.00 to \$25.00 Cash, Balance, \$5.00 per month. Second, Half Cash, Balance 3 and 4 months. Third, Equal Payments, 2, 4 and 6 months.

SPECIAL DISCOUNTS:

For 3 or more Machines.

For 6 or more Machines.

For 12 or more Machines.

WE DO NOT send out Machines on approval, We guarantee them.

Extra-Discounts for Large-Orders for Monthly-Deliveries.

THE BEST TIME TO
PUSH SALES IS FROM
SEPTEMBER 1st
TO MARCH 1st

OUR REFERENCE

FOR FINANCIAL STANDING AND RESPONSIBILITY,
ANY BANK OR COMMERCIAL AGENCY.

WE HAVE A REPUTATION OF FIFTY YEARS TO SUSTAIN

You can therefore bank on receiving First-class goods.

WE HAVE HAD SUCCESS; the users of our machines have had success.

The secret is the Superior Merit of our machines; and the fact that we have outlived so long the best of our Canadian competitors; doing our 800,000,000 have been hard at it establishing a worldwide reputation for

FIRST-CLASS KNITTING-MACHINES.

Don't go fishing when Dymars-Machines.

Our Illustrated Instruction Book

it complete, DEMONSTRATING IN THE FOLLOWING MANNER, how to perform the simplest operations, making learning so simple that a child can succeed.

STARTING OR SETTING-UP WORK

Wear left hand hold Set-up as shown in cut with

Set-up $\frac{1}{2}$ of an inch below the tip of Needle-Cylinder.

No more, no less, and evenly all around the needle-cylinder. Commence Setting-up at A in back of machine, and

Set-up from right to left by placing also yarn around each needle and around

Any opposite corresponding book of Set-up. Twice-when-necessary.

Cross-the-yarn from right-to-left between pick and every needle as shown in cut.

HOW TO SEAM OR CLOSE THE TOE

Flip out last row knit. Now to seam toe with the reserved yarn. Each-stitch take the needle through through-stitch also: put the needle in through the first-stitch and out through the next one on the same side; then put the needle in through the first-stitch and out through the next one on the other side: then put the needle in through the next you brought the needle out of on the first side, and out through the next-stitch on the same side, and so on, as shown.

NEW HEELS AND TOES. A new toe can be knit in old work by cutting off the Toe and raising half the foot-stitches on so many needles, and new-knit by cutting out the heel and casting the Upper-heel-stitches on so many needles: then knit heel or toe in the usual manner.

Seam the New-heel or toe with Closing-stitch. (See above cut.)

\$100.00 REWARD

to anyone with reasonable intelligence who cannot knit or make a good sock or stocking in a few hours on any of our Family-Machines from our full Illustrated-Instruction-Book, which accompanies each of our Family-Machines.

DO NOT BE CAUGHT NAPPING

I am not the only woman who has reason to regret buying one of those cheaply-made machines that has been sold.

There are sellers who have been induced by fat promises to purchase cheaply-made machines sometimes without attachments, or with cheap Machine-attachments worthless for practical use and at Prices much higher than CREWMAN BROS.' regular Complete-machines, which are worth many times the money asked for the inferior article. Just think of it—machines on the market with Needle-cylinders made out of Lead-or-hubbub-metal. A word to the wise is sufficient.

Pressing-Hosiery. Socks-and-sockings may be pressed on Woolen-forms $\frac{3}{4}$ of an quarter inch thick. The leg of a plain sock or stocking is pressed entirely from Top-to-bottom. A rib-strip with plain-leg is pressed only in Plain-parts. Another rib-strip or stocking is pressed in the Foot-only, with damp cloth, and in the leg with partially damp-or-dry cloth. The hosiery is put on the form and covered with a strong cloth and pressed with a hot-steam- or hot-water-ironing-iron.

Hosiery Pressing Forms are carefully made up of good hard-wood or brass-wood $\frac{3}{4}$ or $\frac{1}{2}$ of an inch thick. We will furnish a Complete-set, 12 paper patterns, all sizes, for 50 cents, plus which perfect forms can be made.

Large-establishments use heavy Steam-presses and Cold-presses for pressing and finishing Sewing-hosiery. The electric iron is much used with new industries with moderate capital.

We have no other desire than to give our customers what will best suit them, and would regret what they give us all information possible to help us to give what will please and give the best of satisfaction. We will be pleased to give further particulars to request.

We would especially recommend Custom-kniters and others desiring to increase their plant, to establish a New-knitting-business, to write to us for information concerning the best machines and dimensions for the work required.

Our Brief-Illustrated-Instruction-Book will Teach You All and will be sent to anyone, postage paid on receipt of price, \$1.00; and should parties wish it for period before purchasing a machine, the price omitted can be deducted from the price of machine when receiving instructions.

A Sample Sock Free

Send us one-quarter-pound of yarn and we will knit for you a Sample-sock, so you can judge the Class-of-work made in our machines. In case you do not know what you want we believe we can give you valuable advice if you will only allow us to help you without 90-years-experience.

OLD AND RELIABLE

CREELMAN BROS'.

Reputation of A Full- $\frac{1}{2}$ -Century is a Valuable Asset
Worth Sustaining

We are determined to keep our Reputation-above-par in the future as in the past, by Giving-genuine-merit in every machine we produce, making it an Ever-living-testimony of High-grade-production.

WE HAVE NOT, for over Thirty-five years, selected testimonials (if not and necessary), although we have received during our experience of 80-years in manufacturing First-class-knitting machines, many thousands of valuable Unsolicited testimonials from Well-pleased-customers expressing their entire satisfaction with our machines.

As many appreciate this kind of unsolicited testimony, we give a few recent as well as old, of the many thousands which tell of the Unquestioned-superiority of Our machines.

Read Carefully The Testimonials on Pages 44, 45, 46 are from Users of Family-Machines, who find it more satisfactory Knitting for dress, nightgown, etc., rather than in a fruitless attempt to lure the Speculative-consumer who make Expressions of work, impracticable and impossible to carry out who supply Cheap-Imitation-machines at high-prices with Cylinders and Dials, &c., made of an inferior material, that can be cut with a knife and cannot possibly give wearing qualities. **A word to the wise. Be Sure Rather Than Sorry.**

DON'T GO FISHING AFTER
New-Up-Start-Machines

BE WISE

and take the
UNSOLICITED TESTIMONY
and experience of those on following pages who have had success with Our-Machines, and trust your orders to the Old-and-Reliable CREELMAN BROS.

RECENT UNSOLICITED TESTIMONIALS

Lawrence, Mo. U.S.A. August 19, 1914.

Misses Creighton Bros., Georgetown, Ont.

Dear Sirs.—I have one of your Improved Money Making Ketting Machines. I use it—just—daily.

I am a blind—blind—man, having lost my sight nearly at the same time. I have had thirteen operations by hand and I own your Machine as a lady's helper boy, and I told her I thought I could work it, and after talking two Japan girls for one week she told me I could learn the Machine up to my elbow, which I did, and now I can knit a pair of socks in one hour. Yesterday I came to my office with the intention of knitting ten pairs but I had good luck and made twelve pairs. Tomorrow I made sixteen pairs and did my other work, too.

I would like to get an Agent for your valuable machines if you will favor me with your best prices. Yours truly,

FRED SKALICKY.

St. Paul, U.S.A., August 21, 1914

Misses Creighton Bros., Georgetown, Ont.

Gentlemen.—Replying to your letter of August 20th, beg to say that you may let the credit for the three Machines come along as soon as possible as originally intended, which includes the shipping-arrangements. I can not wish to delay the shipment of the Machines.

If you interest you a little in getting to know that I turned over yesterday to the Red Cross Society for the month ending August 29th, 90 pairs of socks made by myself and 60 pairs made by my daughter, and also 25 pairs to the Ladies of Columbia, the Canadian Order—responding to our Red Cross. I merely mention this to let you know that the machine is as being put to good use in these trying times. There are wonderful machines, and I have recommended to many of my friends to purchase them.

My daughter would like to take the money for your Machine and I am prepared to back her up financially. I have now nearly finished with the Machine.

Awaiting your favorable reply,

Yours truly,

F. MYERS.

Newark, Ont., March 8, 1914.

Misses Creighton Bros., Georgetown, Ont.

Gentlemen.—Enclosed please find Four Office Order for \$100.00 on account of my Machine recently purchased from you.

I have done very little with the Machine as yet but am greatly interested in the same. I am a member of the Board of the President of the Red Cross Association of Columbia and will have order of 100 pairs for the Red Cross next week. Today, while knitting sock legs I had with a good-hand-helper and made 25 socks, 2,000 stitches, which she did 30 minutes. This is over one hundred times better, which overcomes the labor of the feet between the hands of the helper, and speaks volumes in favor of your Ketting machine.

Yours very truly,

MRS. J. R. CAMPBELL.

TESTIMONIALS FROM THE BLIND USERS OF OUR MACHINES

Calx, Ont., April 26, 1912.

Misses Creighton Bros., Georgetown.

Dear Sirs.—I have used the Ketting Star Ketting Machine for Three—two years and it has always given good satisfaction. My customers come back year after year because my machine makes good work. I am a blind—blind—man. I certainly a great deal better than I would be without it.

ANNIE COMMON.

Ardenburg, B.C., Dec. 24, 1914.

Misses Creighton Bros., Georgetown.

Dear Sirs.—The machine runs as good as new, and I appreciate the service. I also expect to sell under a few things made by the machine. We are having such a warm winter and we must have it not only for us but for our neighbors.

With compliments of the season, I remain,

Yours truly,

EVA REED.

North, N.B., Jan. 1, 1914

Misses Creighton Bros., Georgetown.

Dear Sirs.—Although it is two months since I received the machine, I can let you know how I like it. Your machine is splendid. I never knew anything about knitting before, but now I can knit my own stockings.

Yours truly,

ERNEST KAMSTROM.

Dorset, Ont., Jan. 27, 1914.

Misses Creighton Bros., Georgetown.

Dear Sirs.—As you will remember, we bought one of your machines the Money Maker, and we had it everything that was claimed for it. We were not disappointed, but we do not have it and we are not sure we can do it. We are not sure we can do it and we are not sure we can do it. We are not sure we can do it and we are not sure we can do it.

Yours truly,

SIR and MRS. THOS. BAKER.

Unklesville, P.E.I., March 2, 1914.

Misses Creighton Bros., Georgetown.

Gentlemen.—Enclosed find \$100.00 with which I am glad to pay for your Ketting Machine. We have your machine and we are very pleased with it.

We received the machine which we had ordered and have given satisfaction with different kinds of knitting and obtained good results from the 25-sock machine.

Being to have been just sent, I remain,

Yours truly,

FRANK A. ASHESLEY.

Florida, Ont., Dec. 21, 1914.

Misses Creighton Bros., Georgetown.

Dear Sirs.—I would like to know whether or not you have a machine which knit socks and stand-up only. If you have, please send me one. I had my first with them, and have been and talked with a man in the neighborhood who has one of your 25-sock machines and who highly recommended it. I am just a beginner and cannot make a big quantity of goods—only a few pairs, but I hope I would be able to get my work done by my neighbor that make a big investment. Truly yours,

EMANUEL BALZAN.

Yarmouth, N.S., April 18, 1912.

Misses Creighton Bros., Georgetown, Ont.

Dear Sirs.—I take pleasure in saying that I have used your machine for Over—two years, and it has done—wonderful—work and allowed my eyes and my hands to be in every respect. It can be used for any kind of work, and stands in the machine, second to none in the market.

GARRETT SHARPE.

Minneapolis, June 1915, 1912.

Mrs. Christine Egan, Georgetown, Ont.

Dear Sirs.—I presume you will be interested in knowing that it is my nearest neighbor since I purchased one of your Knitting Machines with Ribber Attachment—*no. 2*. I am satisfied working it well and have experienced no difficulty with the ribber, and find a great deal of enjoyment. The machine has given me entire satisfaction.

I believe, judging from how well improved

machines which I had the pleasure of working on the Toronto Exhibition. Although blind, I enjoyed the working of your machines at Toronto and have always found it pleasant and profitable to do home work, and you know that I can save you the twelve miles of ribbing in a day, as well as most the finishing. It has cost me very little for laundry, I have no hesitation in recommending it to the blind, and especially to those who can see.

Yours truly,

LIZZIE RIDGGE.

TESTIMONIALS FROM FAMILY USERS OF OUR MACHINES.

Windsor Station, N.B., Feb. 23, 1912.

Mrs. C. Constance Egan, Georgetown, Ont.

Gentlemen.—It is with feelings of pride and pleasure that I testify to the efficiency and quality of your knitting machine, viz. Home Maker A, being in my continuous use in Canada, and will continue to use it with the best satisfaction to the latest date. It is at the most reliable and satisfactory that I have seen at any time, and will do all the work and more than I require in it. I have only had the machine a short time, and my satisfaction is growing all the time, and I am glad to see it only had the machine about one year before he had a pair of ribbers knit without making mistakes, and can do all kinds of fancy work as well, and his mother can handle it comfortably, too.—Working you all the women that purchase—I believe.

Yours truly,

T. W. DENWICK.

St. Louis, Mo., April 1st, 1912.

Mrs. Christine Egan, Georgetown.

Dear Sirs.—I take the liberty of writing to let you know how well I get along with your Home-Maker Knitting Machine. I purchased it last November and in less than three weeks I could knit the easiest yarn, thirty-six, and also the finest and most beautiful. I have sold the socks for David's use. Anyone can take your instruction book and knit themselves in a short time. It is well matched with it and they knit easily in it for it is a short time.

I remain yours, MRS. COLEMAN.

Mr. Constance.

Dear Sir.—I bought at liberty to see my name in connection with World Star Knitting Machine, as it has been in use all it was represented. It has done good work and in the years since it is as good as any I had but not over the anything for repairs really needed. Also your machines with me have been of great help in my work.

MRS. FULLER, Orono, Maine.

TESTIMONIALS FROM CUSTOM KNITTERS.

Biggs Station, N.B., April 2nd, 1912.

Mrs. Christine Egan, Georgetown.

Gentlemen.—I have much pleasure in stating that my wife is still using the World Star Knitting Machine she bought from you in 1906, in Georgetown, and that it is just as good for work now as when first received. She has no company with her since, made as many as six hundred pairs such a long stockings on the machine that it has more work, and it will please the most work.

Yours truly,

JOSEPH WINTER, Station Agent.

St. John's Falls, Ont., April 2nd, 1912.

Mrs. Christine Egan, Georgetown.

Dear Sirs.—I have been a user of your knitting machine for the last twenty years and have had a great deal of satisfaction and pleasure with it. I can make a good living by using your World Star Knitter. Does not seem any other that I would take in preference to it. Yours truly,

ELLA BEVERIDGE.

Piquette, Ont., April 5, 1912.

Mrs. Christine Egan, Georgetown.

Gentlemen.—I have been using the Star Ribber Machine for ten years, starting with one machine and now having in all a second. We now have pleasure in our business, and we are able to see we have never been any more better than that we are able to do in our time. Our business is increasing each year and we have not sold ourselves for years in business.

WILLIAM GOW.

London, Ont., April 15, 1912.

Mrs. Christine Egan, Georgetown.

Gentlemen.—I beg to say I have had about ten years use Two-Star-Knitter Knitting Machine, which I have been working ever since. The last two years I put on a lower attachment and ran them by power, and they have not had one out of order outside of needles and wire adjustment the same I bought them, and still running every day on heavy work. They have proved satisfactory, and I have pleasure in recommending them to anyone wishing to buy knitting machines.

Yours truly,

E. F. WERK, Lumbering Machine Sales.

Ottawa, Ont., April 11, 1912.

Mrs. Christine Egan, Georgetown, Ont.

Dear Sirs.—Your Mitt Machine for Leno and Fluted-Leno Mitts came to hand. I set by the machine and by the best-hand-hour working, it is giving the best of all right.

The World's Star I got from you over twenty years ago is still in perfect condition. It has been in steady use during that time and has not needed any over-see repairs. I think that is not bad. Have used several other makes—some more expensive and others less so, but none have given me the satisfaction I have had in using your machine. They are strong, speedy and easy to use. I find I can sleep it to my mind and go ahead with comfort, knowing my work will come out alright.

Yours truly,

MRS. E. J. HEATH.

TESTIMONIALS FROM MANUFACTURERS.

Weymouth, Wis., U.S.A., March 21, 1914.

Messrs. Columbia Bros., Georgetown.

Dear Sirs.—We received the last machine all in good order and are very well satisfied with same, and hereby ask to send an another Cylinder with Nozzle and one Standard Needle for the Cylinder we now have in use. We are sending you a check of \$2.00 which we wish you to keep on the new cylinder.

Yours truly,

H. C. BONEA, 107 Main Street.

Argonia, Mo., April 14, 1914.

Messrs. Columbia Bros., Georgetown.

Gentlemen.—Being interested in getting a Heavy-Knitting Machine and having heard of the High-Standard of Your Machines through Mr. Bernathie, of Lewiston, Mo., I should be obliged to you, if you would send your latest catalogue.

Yours truly,

E. F. BLODEAU, 274 1/2 Main Street.

Montreal, April 21st, 1914.

Messrs. Columbia Bros., Georgetown.

Dear Sirs.—We beg to state that the New-Kay machines we purchased from you are quite satisfactory, also the New-Stream, having fully tested them on High-Speed. One of our girls has just returned from the United States, and had fully examined several makes of Sewing-Machine-Knitting-Machines especially adapted for Hosiery-Making, etc. We are, however, satisfied we have the best, and will, we hope, in the near future be able to place an order for more. As you are aware, we have about twenty-machines of your make and among the same number of other makes. We must confess we prefer yours to any other for Durability and High-Production. Thinking you gentlemen fit your prompt attention to our factory, we are,

Yours respectfully,

NEWBOLD BROS.

KNITTING-YARNS

GOOD KNITTING YARN is as essential as a First-class Family-Knitting-machine to enable the user to have the Fullest pleasure and Profit out of the Features of Art-of-Knitting. To help Purchasers of our Family-Knitting-machines to enjoy both Pleasure and Profit, we have decided to Return-to-supplying the Best and most Profitable-Lines of yarn and Carry-in-stock as in former years the Yarn most suitable for Machine-Knitting. We will be pleased to forward samples and prices of these Stock-Yarns to any and all users of our Family-machines who have not already received them. Show-the-Samples-to-Your-Neighbors, they may join you in placing-an-Order to be shipped as One-PARCEL and ONE-INVOICE.

CASH TERMS

OUR TERMS FOR YARN-ORDERS will be CASH-WITH-ORDER. We therefore request all orders for yarn to be accompanied by Check, Post Office-order or Express-order for \$5.00, \$10.00, \$15.00, \$20.00, \$25.00 or for amount desired; also please return samples of yarn and give quantity in pounds required to such kind with instruction to substitute when purchaser desires substitution. Show full value may be given for amount of money remitted in case of Stock-shortage of any particular kind of yarn.

YARN SHIPMENTS are usually forwarded by Mail or Express. One pound up to 10 pounds can be forwarded by Mail as ONE-PARCEL.

All Mail-Order-Shipments require purchaser to forward the amount necessary to cover the postage or Parcel-fares as given.

ALL-SMALL-ORDERS of less than ONE-PACKAGE of about 3 to 10 pounds will be 10 cents per lb. EXTRA. **ONE** package is about 6 lbs.

If more money is allowed or credited for Postage than is actually required, we can square the account by sending extra yarn to balance the Remittance or deduct the Postage from the Remittance and send yarn to Balance.

EXPRESS-ORDER-SHIPMENTS

Are forwarded and purchaser pays the Express or transportation charges at the Express Office on receipt of goods.

WE send-Expert-Teachery to instruct-purchasers of family-machines, at the Rate of \$2.50 to \$3.50 per day, including the days going and returning. The railway and Travelling Expenses and Board while teaching are also paid by the visitors. Many good-operators in all parts of Canada will also teach at the same rate—25 cents per hour. **WHY-NOT-BE-A-TEACHER?**

PARTIES with whom We have no account or acquaintance (not commercially-rated) will save their time and ours by sending Remittances-with-Order.

EXPERIENCE
