November 12th 1926.

Mrs. I. C. Mills.,
Yarm P.O.
Que.,

Dear Madam:--

In further reply to your letter of November 8th, in our letter of the 10th we stated if you could sell a few machines, we would be pleased to give you a liberal discount for your trouble of selling and teaching.

In place of saying this, we should have referred to you to P. T. Legare of Quebec city who is agent for our family knitting machines, and if he is not already represented in your locality, he might be willing to do business with you in case you have some parties who you think would like to purchase a machine.

We do not supply yarn or take work from our customers. That is done by some firms, that supply a cheap trap machine with cylinders and dials molded like a bullet, out of soft material that cannot have wearing qualities other than wear out quickly and we are quite sure you would not wish to make an investment in a machine of that kind.

Yours truly,

CREELMANS LIMITED.,

Per., *R. I. Creelman*
