There are 5 cabins. Each cabin has a middle section for visiting, etc. and a side with a set of 6 bunk beds and 3 shower stalls and bathroom stalls and sinks. That makes it 60 beds without using the top bunks. I don't think it will be necessary for anyone to use a top bunk. If you'd like to stay on Wednesday (May 29th) in one of the cabins before the retreat starts, please enclose an additional \$25 and let me know.

There are small fridges and microwaves in the middle section of the cabins, plus sink, cups, silverware, etc.
