Because it speaks for itself when knitting. It is **compact**. It is **easily learned**. It is **strong, durable**. It is not a cheap-trap-machine, but a **complete, perfect Family Machine, amazingly cheap**. Guaranteed Reliable. They sell like hot cakes. Try it. It is a veritable "\$" maker.

ONLY one card or advertisement (but not both) will be accepted on one "\$" machine.

Our \$2.00 and \$5.00 offers are not granted on Club Rates or to Agents.

THE REASON WHY WE  
CALL IT THE  
"\$" MACHINE, OR THE

**THE  
"CREELMAN  
TRANSFER  
NEEDLE"  
MACHINE.**

**T**HIS MACHINE is specially designed (like OUR STAR machines) for high speed, either for hand-power or steam-power, and in such manner that Hosiery Manufacturers not using steam-power and requiring high speed can have it by ordering a 9 inch driving-wheel, which knits 3 rounds for 2 turns of crank; being  $\frac{1}{2}$  faster than the 6-inch driving wheel which is usually supplied with steam-power or hand-power manufacturing machines. A new invention—patented.

★ The blind successfully use our machines. Send for testimonials from them.

"THE MAN TRANSFER-NEEDLE RIBBING MACHINE," like other systems has its special points of merit. In this respect it is specially adapted to the making of Ribbed Socks, Ribbed Stockings and Boys' Knickerbockers, all of which can be knit continuously without re-setting up for each sock, and in the most perfect and rapid manner by means of The Transfer-Needle, which only requires to be lifted out of the needle-cylinder and placed in the needle-dial. The Stitch remaining on the needle during the operation of transferring. In this respect it is the same as the "Dollar" Machine; the needle being the "\$" needle, or Creelman's Patent Transfer-Needle.

PRICE, (see first page) ADD \$10.00 TO PRICE OF "\$" MACHINE.
